Highlights Of Convention Speakers

Hon. Ralph W. Gwinn

"When I entered this hall, the 5th annual meeting of WE, THE PEOPLE! on the Constitution, I met a man who looked familiar. He said, 'I'm just a precinct leader in Canton, Ohio.' And I said, 'Why do you say that with some little apology? You occupy the most important place that you could fill right now in politics. You can help work at the grass roots to find good men for office, and secure their nomination. Then, you can organize to support their election and their maintenance in office. Thus, you will keep out of office someone who may support the opposite point of view, namely, socialism or communism.' The precinct — that's the place where we can all be effective, not in summit conferences. The job really must be done in our own back yards.

"The purpose of this conference is to dedicate ourselves as individuals to do the job that must be done there — we must join forces with the business men in each

For Conservative Action In Your Community

Reports at the 5th Annual Constitution Day Convention of WE, THE PEOPLE! held in Chicago, Sept. 18-19-20, suggested programs for developing greater interest in the conservative cause at the community level. Citizens are most interested in local issues: Metro Government, Urban Renewal, "Fair Housing" schemes and Marxist indoctrination in high school text books and in Sunday School materials.

The following programs are now being developed to bring this information to the people in your state and community. Write to WE, THE PEOPLE! if you will volunteer to help in any of these programs:

1) Starting a Free Enterprise Press Service to distribute factual feature articles to the 8,000 weekly papers throughout America and the 1,700 dailies that are being fed left-wing material by the agencies working to destroy our freedom.

2) Staging Regional Patriotic Rallies in towns where patriots will work to get out a crowd of 300 to 500 people; top speakers will be featured to stage a School for Anti-Communists.

3) Assisting civic associations in holding political action training schools to help local citizens select and elect conservatives to office to offset the pressures of left-

mit conferences. The job really must be done in our own back yards.

"The purpose of this conference is to dedicate ourselves as individuals to do the job that must be done there — we must join forces with the business men in each of our communities, who now show an interest in saving themselves and, of course the rest of us, from socialism. Together, we must re-affirm our faith in self-government and freedom under God. That means we must be determined to limit the power and function of government in order to extend the privileges and benefits of freedom."

In his parting remarks as president of WE, THE PEOPLE!, the Hon. Ralph W. Gwinn stated that the way to get rid of the socialists and communists in the U.S. is not to try to drive them into the sea, but by repealing the income tax, which would starve them to death. He said we are establishing our own variety of socialism which makes even Khrushchev laugh. We are in disrepute around the world because the world knows when we talk about the free world we are not a part of it. In closing, Mr. Gwinn said, "I plead with you again to go home and help change the face of Congress which is doing all of this, and don't wait for the Lord to send someone from Heaven to take us out."

Senator Barry Goldwater

"From the cool reception that Mr. Krushchev has received in America, it is obvious that the only meeting he is going to have where he will have an understanding and sympathetic audience will be that one in San Francisco (with Reuther and Carey).

"We are all conservatives, but we have to realize that we are not going to accomplish our goals by words alone — it is going to take action, action at the polls. We have to stop this attitude of not voting because we do not agree 100% with another-

Dr. Billy J. Hargis Elected President of WE, THE PEOPLE!

The board of directors of WE, THE PEOPLE!, national coalition of conservative voters, at the closing session of their national convention in Chicago Sunday, Sept. 20, elected Tulsa Evangelist Billy James Hargis to the presidency of the organization for their next fiscal year, beginning Nov. 1. Dr. Hargis succeeds the Hon. Ralph W. Gwinn, former Congressman from New York, to not only the presidency but to a trusteeship as well.

Other new officers voted by the directors include one new regional vice-president, Claude R. Pasco, Sioux Falls, S. D. and four new directors-at-large, Orville F. Sherwood, Grosse Point, Mich., Milton M. Lory, Sioux City, Iowa, Dr. Charles W. Pavley, Columbus, Ohio and Dr. Hugh S. Ramsey, Bloomington, Ind.

Dr. Hargis heads his own anti-Communist evangelistic organization called "Christian Crusade," headquartered in Tulsa, Okla. and has been an outspoken critic of liberal tendencies in church, state, government and education for eleven years. His organization maintains daily and weekly radio broadcasts heard in 44 states and publishes a monthly magazine to a circulation of more than 50,000.

Other officers and directors re-elected at the board's Sunday session include

Dr. Billy James Hargis, radio evangelist whose broadcasts are heard daily in 44 states and who devotes the majority of his time to fighting Communism, is now the President of WE, THE PEOPLE!

Dr. Hargis has made five foreign tours (none at government expense) in his Christian Crusade against Communism. He has met and conferred with such anti-Communist authorities and world leaders as Generalissimo Chiang Kai Shek of For-

Communists.

3) Assisting civic associations in holding political action training schools to help local citizens select and elect conservatives to office to offset the pressures of left wing labor bosses and other socialists working to gain control of the government.

Sometime next year, when we have collected enough money to underwrite the cost, we shall produce a motion picture which can be widely used and distributed throughout the 50 states to tell the story of what we stand for and what we stand to lose if our people fall for Socialism and World Government.

WE, THE PEOPLE! will also advertise on the radio to reach more patriots and gain more members so that we can offset the influence of the left-wing pressure groups who hope to force Socialism through our Congress.

CONVENTION NOTES

Things Conservatives agree on:

War is not likely, Soviet rocketry is largely a bluff, and a hoax — but our greatest danger is within. The Reds still intend to take us over through our own government from within . . . and are doing so! They influence our domestic and foreign policies. They influence our schools and text books. Our churches and Sunday School materials, our libraries, our publishers, our films and broadcasting, our communications and foundations.

Helping the Reds are our internationalists in the schools, churches, foundations and in the government. Internationalists believe we should work toward world peace by destroying all patriotism and national loyalty, all allegiance to the flag and love of country, etc. Their weakness is that our sworn enemies, the Russian and Chinese Reds, are building national loyalty among their people, along with a bitter hatred toward everything American.

ing and sympathetic audience will be that one in San Francisco (with Reuther and Carey).

"We are all conservatives, but we have to realize that we are not going to accomplish our goals by words alone — it is going to take action, action at the polls. We have to stop this attitude of not voting because we do not agree 100% with another conservative's point of view.

"While here in America we are rightfully concerned with the threat of socialism, we should be equally aware of the danger that exists in our own country from those radicals who are daily attempting to destroy our form of government and our system of economy. It is against these people that the members of WE, THE PEOPLE! and loyal conservatives must actively work."

Mrs. Ray Erb

"The only answer to today's national problems is a return to the Constitution, with government expressing strict loyalty to its basic principles.

"In recent years while we weren't giving much thought to the Constitution, men came with evil and selfish purpose, or with stupid disregard of the real meaning of our great heritage and have gradually despoiled the people of this sovereignty in which is involved the very essence of the freedom which the Founding Fathers sought to safeguard in their inspired document. This came about in ways which deceived our people as to the real purpose behind each act of sabotage of their vital interests.

"The powers of our government are given it by the governed, by the people themselves. This is where it belongs in our Republic, and where we should struggle to return it."

Dr. Hargis has made five foreign tours (none at government expense) in his Christian Crusade against Communism. He has met and conferred with such anti-Communist authorities and world leaders as Generalissimo Chiang Kai-Shek of Formosa and Dr. Syngman Rhee of South Korea.

Depending upon Dr. Hargis' busy schedule, both he and Harry T. Everingham, Exec. Vice-President of WE, THE PEOPLE!, are now available for Regional Patriotic Rallies in principal cities. The plan is to stage a Patriotic Rally on a Friday evening for 300 to 500 people and then devote all of the following day (Saturday) to an Anti-Communist School. Subjects which would be covered are: "How Communists Are Using Our Internationalists"; "How Communists Are Infiltrating Our Government"; "Communist Influence in Our Schools, Sunday Schools, Church Groups, P.T.A., League of Women Voters and Local Government Issues"; "Communism in Our Local Communities Through Urban Renewal, Metro, 'Fair Housing' and Other 'Social' Legislation Designed to Create Tensions and to Destroy the Foundations of Self-Government and Private Property."

Internationalists believe we should work toward world peace by destroying all patriotism and national loyalty, all allegiance to the flag and love of country, etc. Their weakness is that our sworn enemies, the Russian and Chinese Reds, are building national loyalty among their people, along with a bitter hatred toward everything American.

The internationalists are brainwashing our people to remove all national loyalty, patriotism and love of country and thus destroy the will to defend themselves. This is being done through UNESCO in the schools and through international influences in our Sunday School materials, sermons and in public affairs' programs designed to destroy national loyalty and build World Government — a One World Government that the Communists will find easy to subvert and control.

Atten. Mr. President:

Needed - A New U. S. Foreign Policy

"You won't change Khrushchev's policies," says Dr. Draskovich. "They have been too successful for too many years. The only way for the free world to win against Communism is through a change in the foreign policy of the United States."

Dr. Slobodan Draskovich, author of "Tito, Moscow's Trojan Horse," was the most articulate member on the panel of spokesmen for the Captive Nations sponsored by WE, THE PEOPLE! in the public rally held in the Grand Ballroom of the La Salle Hotel, Chicago, Sept. 19.

The following program is offered by Dr. Draskovich as foreign policy for the United States to effectively block Communist aggression:

1. "Our country and the whole free world are engaged not in peaceful competition but in a life-and-death strug-

icy of political and moral offensive, which will relentlessly and insistently remind the whole world of the black record of communist inhumanity and depravity and keep all communists permanently on the bench of the accused before the tribunal of the world's public opinion.

5. "We must give all our political and moral help to all peoples oppressed by communism by constantly raising the issue of the subjugated peoples officially at every opportunity and unofficially whenever any problem of communism is discussed.

"While liberation must ultimately be the work of the

enough knowledge, enough interest and enough will to defeat communism and safeguard freedom in the world—but was helped by the gullibility, moral weakness and lack of dedication to the ideals of freedom and justice on the part of some Western leaders.

The Soviet Union, being militarily much weaker than the United States, does not rely on nuclear weapons and long range missiles to achieve its goal, but on political warfare consisting of deception, propaganda, deceit, treachery, brainwashing of the free world through the mirage of co-existence, which is not meant to prolong the life of the free world but to end it sooner. The main target of all communist political warfare is the United States, the strongest country in the world and the main hope of all oppressed.

Convention Bombshell

These things have happened as a result of our attending the Convention last week.

The minister who was with us has delivered a blistering sermon on the dangers of Communism and I can tell you that our people who heard it were impressed and are doing some serious thinking about it. This minister has asked me to finance the purchase of about fifty of the booklets by Dr. Swartz on Communism, he will then send them to fellow clergymen.

The school teacher who was with us has his students studying Communism for what it really is and is using the booklets he purchased at the Convention.

The local County Commander of the American Legion has looked over the information we brought home and has asked us to send for copies of the petition Please Mr. President Don't Go, he will distribute them to the county units.

A friend of mine asked me to order 500 copies of the Human Events article by Senator Dodd, he will mail them out to all his customers and he has invited me to speak to the Dixon, Ill. Lions at noon Tuesday.

I just wanted you to know how you inspired us by this meeting.—Seth Foster, Franklin Grove, Ill.

United States Day - October 23, 1959

The United States Day Committee, Inc., (Post Office

The following program is offered by Dr. Draskovich as foreign policy for the United States to effectively block Communist aggression:

1. "Our country and the whole free world are engaged not in peace's competition but in a life-and-death struggle with the Soviet union and the communist world conspiracy. Nikita Khrushchev explained very clearly the communist meaning of co-existence when he declared that the U.S.S.R. has been practicing co-existence ever since 1917.

2. "Today, the main strength of the communists is not military, but political. It is their ruthless propaganda offensive destined to confuse our ideas about right and wrong, about freedom and slavery, about truth and communist lies, and induce us to trust them, to increase cultural exchange with them, to ignore their crimes, to believe their alleged good intentions, to accept blindly their protestations of good faith, in spite of all their vile record of 42 years of hideous crimes.

3. "We have the greatest and noblest human heritage of freedom and human dignity to enjoy, cherish and defend. It is only because we have been remiss in our duty to defend our heritage, that communism has been able to achieve its huge successes. The future of our United States and the free world depends not on containment or appeasement or cultural exchange but chiefly and decisively on our moral courage to stand for what we believe in and on our strength of will in combatting communism and defending and promoting freedom.

4. "We must make an end to our helpless political and moral retreat and inaugurate a bold and imaginative pol-

peoples oppressed by communism by constantly raising the issue of the subjugated peoples officially at every opportunity and unofficially whenever any problem of communism is discussed.

"While liberation must ultimately be the work of the captive peoples themselves, we have the obligation of giving them all our political and moral support.

6. "By doing so, we are not running the danger of war. On the contrary, what the communist leaders dread the most is the mounting dissatisfaction of the oppressed which will: 1) Paralyze all their aggressive plans against the free world by tying up their forces at home and 2) Lead to the downfall of communism and the liberation of all oppressed as a consequence of the ignominious disintegration of the communist regimes.

7. "Divine Providence did not create this great country, the United States of America, to have it gradually disappear in fear and surrender before the barbaric onslaught of the worst tyrants in human history, the communists. This country was created to be a new and glorious venture in man's striving to live in freedom, human dignity and justice. We can never save our country and ensure a bright and happy future to our children and grandchildren by yielding and surrendering our God-given rights, but only by remaining unwaveringly faithful to the ideals of freedom upon which the United States of America was founded."

If you believe in this program, please include it in a personal letter to the President of the United States and to the Secretary of State.

The main reason for Communist success resides in the fact that ruthless communist imperialism was not met by

to the Dixon, Ill. Lions at noon Tuesday.

I just wanted you to know how you inspired us by this meeting.—Seth Foster, Franklin Grove, Ill.

United States Day - October 23, 1959

The United States Day Committee, Inc., (Post Office Box 353, Tulsa, Oklahoma) has issued an appeal to patriotic Americans to observe United States Day on October 23rd. It is an appeal to which all patriots will respond.

Patriotic programs scheduled for that time of the month could well be used as an opportunity to reawaken our people to the fundamental principles underlying our nation's greatness and to the evil influences that would destroy it.

U. S. Day pamphlets, flag stickers, etc., may be procured from the U. S. Day Committee, at the above address.

COMMUNIST-SOCIALIST PROPAGANDA IN AMERICAN SCHOOLS

By Verne P. Kaub

This book is a must for all those interested in what the nation's youth — tomorrow's leaders — are being taught. The author offers incriminating evidence, found in the official NEA publications, proving his contention that so-called progressive education is in reality subversive education.

The American Coalition has for 30 years been trying to hold back the flood of foreigners who are not helping to preserve our present system of government." Mr. Lory stated that his organization helped secure the present quota system and also helped to pass the McCarran-Walter Immigration Act, and that so far they have been successful in keeping it on the books. They are prepared for sudden attack by left-wing forces. The latest information is that another attack on this Act will be made at the next session of Congress. As a reporter, he has tried to find evidence and states there is not one thread of reliable evidence in the public record that the Soviet Union has any of the missile capability that it claims. He presented scientific evidence to prove that the recent Soviet Russian "moon-shot" was a fake. The moon moves from west to east. The shot would have to be aimed to the east of the moon in order to head it off. However, the sound comes from the west of the moon; furthermore, it did not diminish in volume as a rocket would. Resolutions

The following Resolutions were passed by WE, THE PEOPLE! in assembly at Chicago, Illinois, this 20th of September, 1959:

To the Attention of the President and the Congress of the United States:

Whereas, the Supreme Court of the United States has interpreted the Executive Order relative to firing disloyal government employees as applying to those in sensitive positions only, and Whereas, it is a matter of grave concern to our nation that the disloyal be permitted to keep

government employment in any capacity and in any level, and Whereas, this is a matter completely within the control of the President of the United States;

Therefore, be it resolved that this convention go on record as petitioning President Eisenhower to immediately take the required remedial step of circumventing the Supreme Court decision by issuing a new or amended Executive Order making it abundantly clear that no disloyal person can continue in government employment whether deemed to be in a sensitive position or not; and be it further resolved that a copy of this resolution be transmitted to the President of the United States.

Whereas, this convention has developed great concern over the failure of our schools to properly inculcate patriotism and a proper respect and understanding for our great republican principles and our American way-of-life, and Whereas, we believe that much of this failure can be laid to the use of biased, subversive and un-American text books, and Whereas, a bill was introduced in the Texas Legislature in 1953 by Marshall O. Bell, known as House Bill 566, which provides satisfactory safeguards in this respect;

our voices as unanimously opposed to any meeting between the dictator of Russia and the chief executive of the United States at what is commonly called a "summit" conference.

Be it resolved that we again indorse the proposed 23rd Amendment to the Constitution, and be it further resolved that we do everything in our power to get our own state legislatures to enact this by concurrent resolutions as was done this past year in Texas and Wyoming.

Whereas, in 1946 an attempt was made by U. S. Senator Wayne Morse and others through Senate Resolution 196 to subject the United States to the jurisdiction of the United Nations' International Court of Justice except in ". . . disputes with regard to matters essentially within the domestic jurisdiction of the United States," and Whereas, S.R. 196 as originally submitted would have given the International Court of Justice the exclusive power to determine the extent of its jurisdiction by deciding for itself whether or not a case before it involved ". . . matters essentially within the domestic jurisdiction of the United States," and Whereas, this threatened surrender of our sovereignty to the U.N.'s International Court of Justice was prevented only by an amendment proposed by then Senator Tom Connally of Texas which left with the United States the right to decide if a case before the Court involves ". . . matters essentially within the domestic jurisdiction of the United States;" and Whereas, Senate Resolution 94 would greatly increase the power of the U.N. through its International Court of Justice to intervene in our domestic affairs;

suspicious affinity for communists, and Whereas, responsible legal authorities, including the American Bar Association, have denounced these decisions, and Whereas, the Congress of the United States has secretly adjourned without taking any substantial steps to correct the grave damage by the court;

Therefore, be it resolved that this convention go on record as urging Congress to take prompt and effective remedial action, and be it further resolved that a copy of this resolution be mailed to each member of Congress when it reconvenes.

Of course I recognize that the convention is not an end in itself but merely a stimulation to action by the members. I particularly enjoyed Goldwater's talk. I am not given to applauding speakers who wave their arms and hammer the desk, and thus you will see that Goldwater's demeanor before his audience, in my estimation, was without equal.

Arranging and carrying through such a program as was just put on by "We, the People" I know is a tremendous task. I got your address out of one of our magazines for Constitutional Government. It makes my heart rejoice to know that perhaps we are not fighting in vain. If you have any suggestions or anything that this group here might help with, please let me know.

in "Reciprocal" Trade Act? Are not thousands of auto workers out of work? This is a fine service for a labor leader to do for his members, but I have yet to see it exposed in any paper in the U.S. THE PUBLIC IS SO DUMB YOU HAVE TO POINT OUT THE OBVIOUS TO THEM.

Is not ADA AGAINST the McCarran law? Are they not working for its repeal? Are they not in favor of flooding our country with Asiatics and Africans to take the jobs of Americans?

Is not Reuther in favor of "Point 4" to industrialize backward countries so that they may further destroy us with sweat shop goods.

We have a fine example of what Liberalism does when allowed free rein. The State of Michigan has had Liberal government for years AND THEY ARE BUSTED. Yet Liberals go right on talking about Federal Aid to Education, for example, where the RICH Northern states like Michigan will help the POOR Southern states like Georgia — YET MICHIGAN IS BUSTED and GEORGIA IS SOLVENT. Make any sense?

No new party will succeed until one of the old ones dies and the new effort springs from its ashes. We must maintain a two party system. No one elected on a new party, while the two remain, could accomplish anything, for Congressmen would oppose at every turn, and no one connected with the now two parties would lose party standing or Chairmanships if in Congress by leaving his party.—CWC

KALAMAZOO—Congrats on the Convention! Your boundless energy and work for the enlightenment of others deserves a million thanks. I add mine, here.

Will you please send me the address of the young man who spoke on the octopus? I want to work on it. I thought the presentation was clear, concise and to the point. Also, if you have any printed copies of your own presentation (drawn on the blackboard) please send along.

I'm happy that Dr. Oliver's talk will be printed in FREE ENTERPRISE, for that was worth coming to the Convention to hear—all by itself.

Astute Analysis

The following is from a letter from Henry Plowdeeper of Wash., D. C:

The Convention was, without doubt, the most purposeful and effective one. It will make all of us work harder and better.

Your idea that the center of the octopus chart should refer to "planner" is right from every approach. The educational "planners" are probably the most deadly. Your diagram (on the convention program) is entitled to much more recognition.

The international banker question is too complex. However, world government appeals to bankers. They see in it a uniform money system. Evidently they do not see that the world government they are sponsoring is keyed into political control.

SAN FRANCISCO, CALIF.—I have my nose to the grindstone now to pay taxes. The tax vultures decided my husband's business travel expenses were not deductible so we've been grounded this past year and have settled in San Francisco.

My activities are practically nil now that I am working for an airline. I do write letters, tho, which have been published all over.

Poor Truman would have been shot as a traitor had he invited Khrushchev to visit. Remember how Republicans used his "Good old Joe" remark in campaigns?

The mess looks hopeless to me.

CHICAGO—Maybe if we could shut off the radio, TV and movies for a few years the people might get back to using their native intelligence. With so much rubbish on the air all of the time, it is hard to expect the American citizen to use his own brain.

It used to be "divide and conquer." Now it is "Confuse and conquer."

YUCAIPA, CALIF.—At long last National Business and Professional Women's Club officers are urging immediate action. Prior to that time those of us who wanted to speak out were considered "odd." I was the first to talk before our local BPW—a panorama picture of the national situation. Really "covered the waterfront."

CHESTERTON, IND.—I heard a man say last night that he had given up hope and had quit contributing to the cause because he had come to the conclusion that it was all "just talk." However he said that he would like to contribute to sending Dr. Billy Hargis to speak anywhere in the world. He said this man wants to stop talking and start acting.

I have a suggestion. And that is for the National organization to go into some one state and assist the locals to organize it, and do not stop until it is organized. It is my opinion that this would encourage other states to follow. Locals must be shown an effective organization. And as soon as it has proved itself in one state others would soon hop on the wagon.

We are not using our tools. If the communists had our tools, they would organize effectively the United States in 30 days. The people are crying for some one to lead out.

May the God of the universe shadow and direct your undertakings in this great cause.

CLARKSDALE, MISS.—They elected me to the Legislature here—and I ran on a platform that was designed by my friends, who forced me into the race. They were the brains and the workers of the whole campaign. They just hauled off and put me in. My platform was it was better to have rich taxpayers and a poor state rather than a rich state and poor taxpayers.

CHICAGO, ILL.—The Chicago City Administration has about 10,000 patronage political workers who work for Democratic Party—national, state and city, because they have jobs and do not consider right and wrong of the Demo. Party. Likewise, with the many Demo.-controlled large cities. There are 2½ million Federal civil service employees. Approximately half—1¼ million — are propagandizing for more spending of all kinds to make their jobs more important and sure.

Hence, We, the People, have a gigantic job. This can be accomplished only by wide publicity, talks over radio and television, etc. This is to influence large numbers of voters.

—E. Hersberger

DAVENPORT, IOWA—I think well of your plan to build a working group to be called "FOCUS," which will be devoted to countering the Communist conspiracy.

The Communists have several hundred fronts that they work behind. The word "FOCUS" means to concentrate and certainly the American people need to concentrate on a fight against Communism.

Unless things are happening that are not being printed in the newspapers, our Federal Government is doing little or nothing to fight Communism in our country. I do not read of any people being arrested, or brought to trial, or fired from important jobs.

WASH., D.C.—Why is Courtney putting on this conference after ours? Why not

the international banker question is too complex. However, world government appeals to bankers. They see in it a uniform money system. Evidently they do not see that the world government they are sponsoring is keyed into political control of industry—a system which does not tolerate private property—contemplates abolition of right to property ownership—inalienable rights of the Constitution.

The point is that to deny citizens the right to own industrial property compels most of them to depend on political authority for the necessities of life. That makes them "political" slaves, the most degrading form of slavery. Such a set-up, unavoidably, destroys free speech and consequently introduces unlimited, or absolute, political power—the basis for corruption and tyranny. The Soviet leaders, therefore, are what they are because of that form of government—not because of peculiar characteristics to be wicked! Nevertheless, most of the attacks on communism are addressed to leader-wickedness instead of form of government.

The main issue is the disposition of our leaders to force upon us, by deceptions, the Soviet Union concept of government, namely, political control of industry as the road to economic security.

It is well to prove that communists, like other politicians, are brutes, liars and cheaters. Then not so many persons will have confidence in what they say or pretend to believe. But, unless the attacks make the listeners more fully aware of the main issue, such attacks lose much of their value, or may even be detrimental to our cause.

As an example of acceptance: The United Nations Charter reflects the Soviet concept of government control of industry. Nevertheless, the President, judges, and legislators, as well as the leaders in every other field, heartily endorse that Charter. *Not many of them are communists in the*

believe it imperative that legislation proposed or passed in the Congress and in our State Legislatures and policies of our State Dept. be explained to the American public and revealed for any dangers to our freedom. If this can be done, I am confident that they will act decisively. If an organization as you propose as FOCUS existed, Eisenhower would not have dared to betray his country by inviting our number one mortal enemy Khrushchev, the Butcher, to this country.

LUBBOCK, TEX.—Am very happy to have your literature. As for affiliating with

Who are WE, THE PEOPLE! . ?

We are well-informed American citizens who believe that the principles of individual responsibility, private property, and self-government are essential to the preservation of our freedom under God. We know that Constitutional government is vital to the preservation of all human rights.

We revere the U. S. Constitution because it provides the checks and balances to limit the power of those who rule over us. We demand that those in government respect and obey the Constitution, which is designed to protect the minority as well as the majority — recognizing the dignity and worth of every individual.

Powerful left-wing pressure groups have been organized to seek special privilege, subsidies and other advantages from politicians in government. These powerful, selfish groups have united to influence politicians in both parties — and are now pushing the United States into socialism and world government. This would mean the loss of our individual freedom and of our independence

as a nation — the end of progress, liberty and prosperity as a people.

Because most politicians respond only to pressure, WE, THE PEOPLE! was organized in 1955 to become a lobby of millions of patriotic Americans from both parties. We are people from many walks of life, many faiths, many origins, joined together in a non-partisan, national federation for effective patriotic action. We now have affiliates in over 1500 communities in all 50 states.

We are united as conservative citizens in order to protect ourselves, our children and coming generations from the threats of socialism and world government. Our aim is to preserve the U. S. Constitution and defend the American economic system that offers every responsible citizen the widest opportunity for individual progress and prosperity.

To save self-government — reduce spending — lower taxes — end inflation —

You are invited to join with us. WE NEED YOUR AID AND SUPPORT.

Won't you join us today?

SAVANNAH, GA.— You say of Walter Reuther, "He is the guiding spirit and chief fund donator for A D A." That is very true. I have often wondered why NO patriotic or underground paper ever does point out to the public that Reuther, who represents labor, contributes to the disemployment of labor? Does not ADA believe

on this conference after ours? Why not join us? Is the cleaverage in the patriotic ranks as between a new party and not? J. Edgar Hoover and Goldwater would not consider being connected with any new party any more than McCarthy, Jenner or others who turned such down. Congress would render impotent any new party or official elected on any such platform.

The article in "Free Enterprise" of primary concern to the correspondent criticizes the Government and alleges the United States is completely controlled by agents of Russia and the United Nations is a nest of American traitors and Soviet spies. Correspondent also enclosed a reprint of an article entitled "U.N., The New Cominform" which appeared in the July, 1959, issue of the "American Mercury." As the title implies, it is an attack on the United Nations but its main theme is that Zionists and Jews control the United Nations. It is to be noted that [REDACTED]
